Howdy!

We hope you are well. This is just a warm welcome, and short summary about G6Fund, before diving into the details.

G6FUND is a crowdfunding platform from **IRELAND** where members create goals and donate to each other. It's different in the sense that members keep the funds at some stage when the system automatically selects them. There are options to choose when creating a goal **from 1 month to 6 months**, you can only withdraw your funds **with 35% to 45% compounded growth** when the selected waiting period is achieved.

Vision

EVERYONE CONTRIBUTE AND EVERYONE BENEFIT is the G6FUND modus operandi

Only a system of an organized global community for the people by the people, can achieve instant and practical results, of big or small goals, for each community member.

With a steady growth rate in funds and membership, it has been proven many times around the world that such a crowdfunding model is effective when all the proper pillars are set and grounded for a solid foundation.

Community Pillars: - Honesty, Respect, Compassion, Fairness, Empathy

System Pillars: - Security, Sustainable Rewards, Longevity, 24/7 Support

Past & Future

Centralization & Banks

- We all rely on the current financial systems to transact when purchasing almost everything, from food, clothes, houses, cars, paying bills etc.
- The financial banks we use are monitored and controlled by central banks to regulate them.
- The regulations ultimately lead to us as individuals being limited and controlled on how we supposed to use our monies, limiting us from being innovative in how we can use our monies to generate more incomes.

Decentralization & Cryptocurrencies

- We have now been presented with a new and alternative solution for the future in a form of cryptocurrencies i.e. Bitcoin, USDT, Litecoin, to name a few.
- Cryptocurrencies are the future which enable all humans around the globe to easily collaborate and become innovative with their monies.
- People can loan each other money, donate to one another, partner with each other from different countries with no unnecessary regulations, and achieve greater things and in our case with G6Fund, help one another set and achieve short-term goals.

Building Blocks

Registrations:

All members should be registered on our g6fund.com web portal. Verify your email and mobile number. Add your cryptocurrency wallet address.

Goals:

Create your goals from your g6fund dashboard. Wait for the system to automatically match with another member within minutes or hours. Make your payment and confirm payment in the system.

Keepers:

While waiting for your goal to be achieved the system may select you to hold community funds as a Keeper, meaning you hold funds temporarily for the community. When other members withdraw money from the system, keepers will be the ones paying the withdrawals.

Affiliates:

Earn extra bonuses by referring new members to the community of g6Fund. You are not forced to recruit, but recruiting will help you earn more cash, some of the cash instantly withdrawable.

Withdrawals:

Once your goals have reached the end of their period, you will be required to withdraw (or upgrade). All withdrawals will then be paid within 48 to 72 hours by keepers as above-mentioned.

Testimonials:

We recommend sharing your testimonials with the world once you are fully paid. There are extra bonuses too for sharing testimonials on social media platforms.

Events: Online and Offline presentation sessions may be organized by members to receive some incentives too.
